EXPLANATIONS OF VOTE ON SR 1407

I like my teachers, too.

L. P. "Pete" Gibson
Senator, 6th District

I voted against SR 1407. This resolution expressed praise for a group of teachers in one county who, in some fashion, took a position as opposing so-called sanctions by the Florida Education Association. As I understand these sanctions, they do not involve a strike by the members of the Florida Education Association and they do not involve said members doing anything which they are prohibited from doing or failing to do an act or acts which they are required to do. In the main, the sanctions imposed to date seem to involve sort of a blanket censure of the Governor in particular and the State in general. Apparently as a result of the sanctions, some out-of-state educators are coming into the state to make some decision concerning the accreditation of Florida's school system. Frankly, I have never understood how persons not associated with either our State government or our education system could be vested with such awesome power as to be able to disaccredit our schools and maybe this should be looked into by the Legislature, but I do not think we should take it upon ourselves to say that the Florida Education Association has acted wrongly in going as far as it has gone. Passing a resolution praising a few teachers for opposing these sanctions, in my judgment, amounts to our criticizing the right of the larger group to speak their collective mind. Certainly, we have more important things to do, such as providing the monies for a truly quality public schools system in this state.

SB 167—A bill to be entitled An act relating to chemical tests as to intoxication of persons operating a motor vehicle within this state; providing for implied consent; adding new sections 322.261 and 322.262, Florida Statutes; providing for suspension of drivers' licenses of persons refusing to submit to such tests; and providing an effective date.

Which amendment reads as follows:

On page 1, strike: everything after the enacting clause and insert the following:

Section 1. Chapter 322, Florida Statutes, is amended by adding a new section to read:

322.261 Suspension of license; chemical test for intoxication.—

(1)(a) Any person who shall accept the privilege extended by the laws of this state of operating a motor vehicle within this state shall by so operating such vehicle be deemed to have given his consent to submit to an approved chemical test of his breath, urine, or saliva for the purpose of determining the alcoholic content of his blood if lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle under the influence of alcoholic beverages. The test shall be incidental to a lawful arrest and administered at the direction of a peace officer having reasonable cause to believe such person was driving a motor vehicle within this state while under the influence of alcoholic beverages. Such person shall be told that his failure to submit to such a chemical test will result in the suspension of his privilege to operate a motor vehicle for a period of six months.

(b) Any such person who is unconscious, or otherwise in a condition rendering him incapable of refusal shall be deemed not to have withdrawn his consent and such tests, except a blood test, may be administered whether or not such person is told that his failure to submit to the test will result in the suspension of his privilege to operate a motor vehicle.

(c) If any such person unreasonably refuses the officer's request to submit to a chemical test, the department shall suspend his privilege to operate a motor vehicle for a period of six months. The question as to whether such person reasonably refused to submit to a chemical test shall be determined by the trial court.

(d) Any person lawfully arrested for any offense allegedly committed while the person was driving a motor vehicle under the influence of alcoholic beverages may request the arresting officer to have a chemical test made of the arrested person's breath or urine for the purpose of determining the alcoholic content of such person's blood, and, if so requested, the arresting officer shall have the test performed, except as hereinafter provided.

(e) Warning of the consent provision of this section shall be printed above the signature line on each new or renewed driver's license issued after the effective date of this act.

(f) By applying for a driver's license and by accepting and using a driver's license, the person holding the driver's license shall be deemed to have expressed his consent to the provisions of this section.

(g) A nonresident or any other person driving in a status exempt from the requirements of the driver's license law shall by his act of driving in such exempt status be deemed to have expressed his consent to the provisions of this section.

(h) Wherever the words 'under the influence of alcoholic beverages' or 'under the influence' shall appear in this act, they shall be deemed to mean under the influence of alcoholic beverages to the extent that the person's normal faculties are impaired.

(2)(a) The test determining the weight of alcohol in the defendant's blood shall be administered at the direction of the arresting officer in accordance with rules and regulations which shall have been adopted by the department. Such rules and regulations shall be adopted after public hearing, and shall specify precisely the test or tests which are approved by said department for reliability of result and facility of administration and shall provide an approved method of administration which shall be followed in all tests given under this section.

(b) The person tested may, at his own expense, have a physician, registered nurse, duly licensed clinical laboratory technologist or clinical laboratory technician or any other person of his own choosing administer a test, in addition to any administered at the direction of a peace officer, for the purpose of determining the amount of alcohol in his blood at the time alleged as shown by chemical analysis of his breath or urine. The failure or inability to obtain an additional test by a person shall not preclude the admissibility in evidence of the test taken at the direction of a peace officer.

(c) Upon the request of the person tested full information concerning the test taken at the direction of the peace officer shall be made available to him or his attorney.

(d) If the test given under subsection (1) is a chemical test of urine, the person tested shall be given such privacy in the taking of the urine specimen as will insure the accuracy of the specimen and, at the same time, maintain the dignity of the individual involved.

Section 2. Chapter 322, Florida Statutes, is amended by adding a new section to read:

322.262 Presumption of intoxication; testing methods.—

(1) It is unlawful and punishable as provided in this chapter and in section 317.201, Florida Statutes, for any person who is under the influence of alcoholic beverages to drive or be in actual physical control of any motor vehicle within this state.

(2) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of alcoholic beverages, the amount of alcohol in the person's blood at the time alleged as shown by chemical analysis of the person's urine, breath, or other bodily substance shall give rise to the following presumptions:

(a) If there was at that time 0.05 per cent or less by weight of alcohol in the person's blood, it shall be presumed that the person was not under the influence of alcoholic beverages.

(b) If there was at that time in excess of 0.05 per cent but less than 0.10 per cent by weight of alcohol in the person's blood, such fact shall not give rise to any presumption that the person was or was not under the influence of alcoholic beverages, but such fact may be considered with other competent evidence in determining whether the person was under the influence of alcoholic beverages.

(c) If there was at that time 0.10 per cent or more by weight of alcohol in the person's blood, it shall be prima facie evidence that the person was under the influence of alcoholic beverages.

(d) Per cent by weight of alcohol in the blood shall be based upon milligrams of alcohol per one hundred cubic centimeters of blood.

(e) The foregoing provisions of this subsection shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of alcoholic beverages.

(3) Chemical analyses of the person's urine, breath, or other bodily substance to be considered valid under the provisions of this section shall have been performed according to methods approved by the state board of health and by an individual possessing a valid permit issued by the state board of health for this purpose. The state board of health is authorized to approve satisfactory techniques or methods, to ascertain the qualifications and competence of individuals to conduct such analyses, and to issue permits which shall be subject to termination or revocation at the discretion of the state board of health.

(4) Provided further, however, anything provided in this act to the contrary notwithstanding, upon acquittal of the person charged with any offense provided herein whereby his driving privileges have been suspended, the department shall forthwith, and without cost to such person, restore full driving privileges to said person, and shall destroy all records made pursuant to the provisions of this act.

(5) Penalties for conviction of driving while under the influence of alcoholic beverages as provided by F.S. 317.201 shall not be imposed as a result of voluntary submission to chemical tests; provided, however, nothing herein shall require the arresting officer to conduct such test in lieu of charging a violation under Florida Statutes Section 317.201.

Section 3. Any person prosecuted under this provision of Florida law shall be entitled to a trial by jury.

Section 4. The provisions of this act shall be severable, and if any of the provisions hereof shall be held to be unconstitutional or invalid, such determination shall not affect the constitutionality or validity of any of the remaining provisions of this act.

Section 5. This act shall take effect July 1, 1968.

—and requests the concurrence of the Senate therein.

Respectfully,
ALLEN MORRIS
Clerk, House of Representatives

EXPLANATION OF VOTE

I favor the use of advanced electronic voting machines which would speed the voting process and protect the integrity of a citizen's vote. However, I voted "No" against SB 875 because its specifications would severely limit the possibilities of the use of other new electronic voting machines in existence or under development.
